

Healthcare HSEEP Exercise

Plan, Execute, and Improve | HSEEP-Aligned | Delivered by Juvare Training Team

Validate Readiness. Strengthen Response. Track What Matters.

Structured healthcare exercises aligned to the Homeland Security Exercise and Evaluation Program (HSEEP) to test real operations, identify gaps, and drive measurable improvement inside your Juvare platform.

Designed for:

- Hospitals and health systems
- Public health agencies
- Healthcare coalitions

Why It Matters

Validate Readiness

Test real-world response performance under pressure.

Expose Gaps

Identify breakdowns across teams, systems, and workflows.

Structured Outputs

Deliver after-action reports with clear findings.

Trackable Improvement

Turn gaps into assigned, trackable actions.

What This Includes: End-to-End Exercise Delivery

Step 1:
Scenario Design & Planning

Step 2:
Facilitated Execution

Step 3:
Evaluator Observation

Step 4:
After-Action Support

Step 5:
Improvement Planning

Exercise Options

Tabletop Exercise

Leadership alignment & annual requirements

Structured discussion and decision-making

Functional Exercise

Testing operations under pressure

Simulated environment with real-time coordination

Coalition Exercise

Multi-organization

Validates shared workflows across partners

Powered by the Juvare Solutions You Already Use

What Makes This Different

- ▶ Delivered by certified training and exercise specialists
- ▶ Built directly in your Juvare instance
- ▶ Focused on operational workflows, not theory
- ▶ Improvement plans tracked inside the platform

When You Need This

- ▶ Upcoming exercise or accreditation requirement
- ▶ Grant cycle with exercise deliverables
- ▶ Repeating after-action issues that need resolution
- ▶ Need to test coordination across partner organizations

Ready to test your readiness? Contact your CSM to start planning your next exercise.
